THE ADVANTAGES AND DISADVANTAGES OF TEACHING BY USING MICROSOFT POWERPOINT

During teaching by using PowerPoint I found many kinds of advantages and disadvantages. There are several of advantages of using Microsoft PowerPoint for teaching learning process, among others are:

A. The Advantages of Using PowerPoint

- **Helping Tool**: PowerPoint encourages and supports teaching learning process by facilitating the material presentation.

- **Editing**: PowerPoint is able to perform a variety of manipulations, such as editing text before printing it out, and the teacher can add new slides for adding new materials.

- **Cost Saving**: PowerPoint is an application program of presentation that is found in Microsoft Office. It means that we did not need to buy new software, because it has been included in Microsoft Office program.

- **Easy to use**: It is easy to use and operate.
Fun based Learning: - PowerPoint is also fun to be applied and fun to watch. It is not hard to learn in one hour. It allows the users to reflect on a lesson and correct any changes, and they can create the perfect lessons and are being able to print them out.

Motivation to students: - Using PowerPoint improve the students’ learning motivation, increasing authentic materials for study, encouraging interaction between the teacher and the students.

It is is a modern tool of teaching.

The Disadvantages/Problems of Using PowerPoint
There are some problems associated with the using of PowerPoint such as

Equipment failure
It includes technical problem such as Computer failure, projector problems, File corruption due virus etc. The solution here is to have alternative activities, for example good preparation.

The most common abuses
The most common abuses in PowerPoint use for teaching and learning include visually poor or boring slide. Too many texts on the slide do not support good reading text, other abuses for example, inappropriate use of multimedia options, for example too much animation or over use of slide transitions. Further, many teachers do not have enough basic knowledge in applying PowerPoint in teaching learning. In addition, PowerPoint cannot handle unexpected situations because PowerPoint is unable to handle the students’ questions immediately as the teachers do.

Objectives:-

This research paper will focus on benefits of using PPTs while teaching poetries specially.

The main objective of this paper is to give importance of PPTs as a helping tool to teach poetry.

Guidelines How to prepare an effective PPTs for teaching poetry.

1. Proper selection of PPT.
2. Correlated picture and background.
3. Use of sound and videos whenever required.
4. Proper animation
5. Try to use limited number of slides.
6. PPTs should represent the words, meaning and emotions of poetry.
7. PPTs should be used after regular teaching so that it will not be a constraint for imagination power of the students. However for students at lower standards PPTs may presented at earlier stage of teaching, as at that stage students are not gone at maturity level of imagination and thinking.
